

BESPOKE TRAINING

As a centre of excellence in palliative and end of life care, St Catherine's Hospice is committed to sharing our specialised skills with other health and social care professionals so more patients, families and communities can benefit.

We offer a range of courses to update your staff in end of life care, enabling you to demonstrate compliance and provide evidence to meet the latest national guidelines and practices. Our team uses a range of creative methods to keep your staff engaged, such as using role playing, videos, group discussion and more.

Our dedicated team of highly experienced educators can deliver training at your own place of work or at the hospice for up to 12 learners, covering a variety of topics from communication skills and syringe drivers, through to first aid and bereavement.

We cover all aspects of end of life care, including caring for people with conditions such as dementia or diabetes, which require specialist knowledge.

We have regularly delivered training to many organisations including;

- Lancashire Care NHS Foundation Trust
- Lancashire County Council
- Care homes
- North West Ambulance Service

We can also provide bespoke training and can tailor our courses to your particular needs, so please get in touch if you have any queries or specific requirements.
